Attitude of Methodist Church Toward Labor.

GREAT BENEFIT TO SOCIETY.

General Conference Approves the Efforts of Workingmen to Improve Their Condition by Organization. Pledges Support to the Movement.

At the recent general conference of the Methodist Episcopal church held at Baltimore a memorial setting forth the attitude of the church toward labor, capital and the sanitary conditions surrounding working people was adopted. The memorial was formulated by the Madison Avenue (New York) Methodist church's committee on the state of the church and reads in part as follows:

"We hold it an imperative obligation that the church interest itself in such questions as those of the iniquitous exploitation of child labor; the carelessness as to life and limb too often shown in factory, in mine and on railroads; the downward pressure sometimes brought upon wages by the competitive system; the chronic phase of misunderstanding and industrial warfare between employers and employees; the regrettable breach, caused by misconception on both sides of the spirit and purposes of each, which exists between large numbers of artisans and the church.

"We welcome every indication of a desire to end disputes and hostilities and to find a basis of reconciliation, fraternity and permanent co-operation. We especially commend all those employers, whether individuals or corporations, who in the conduct of their business have exhibited a fraternal spirit and a disposition to deal justly and humanely with their employees, particularly as to wages, profit sharing and welfare work; hours of labor, hygienic conditions of work, protection against accidents and willingness to submit differences to arbitration.

"We cordially declare our fraternal interest in the aspirations of the laboring classes and our desire to assist them in the righting of every wrong and the attainment of their highest well being.

"We recognize that the fundamental purposes of the labor movement are essentially ethical and therefore should command the support of all. We recognize further that the organization of labor is not only the right of the laborers and conducive to their welfare, but is incidentally of great benefit to society at large in the securing of better conditions of work and life in its educational influence upon the great multitudes concerned, and particularly in the Americanization of our immigrant population. While we cordially appreciate the social service rendered the community by captains of industry in maintaining large businesses, affording employment to hundreds and by their products serving the needs of their fellow men, yet our primary interest in the industrial problem is with that great number who by their conditions of toil cannot share adequately in the highest benefits of our civilization.

Their efforts to improve conditions should receive our heartiest cooperation, as must all similar effort on the part of employers or disinterested organizations.

"We are gratified by the growth of the spirit of conciliation and arbitration in adjusting trade disputes, and we trust that these methods may increasingly supplant those of strikes and lockouts, with attendant boycotts and blacklists. We urge all our members, both employers and employees, to the fullest possible promotion of the principles of industrial peace and human brotherhood. We record our firm conviction that the church, in so far as it is an employer of labor, either locally or through its general organizations, ought to exemplify in practice the principles herein set forth."

New York's Garment Law. The exemptions in the garment law recently signed by Governor Hughes of New York brings the amount of salary or wages that can be garnished on down to \$12 per week. Ten per cent of this sum is now subject to claims. The additional exemptions are household furniture, working tools, team, professional instruments and library when not exceeding \$250 in value and when owned by a householder having a family for which he provides.

Here to Stay.

The labor union is here to stay. It is simply a question of whether it will be good unionism or bad unionism. Like every great social movement, it is passing through its period of hysteria.—Rev. Charles Stehlik.

LABOR NOTES.

The Iron Molders' Union of North America will celebrate its semicentennial next year.

Two hundred thousand men are employed by the National Metal Trades association.

The New York legislature of 1908 enacted ten of the bills proposed by the workingmen's federation of the state.

The Teammakers' Protective Union of the United States and Canada claims to be the second oldest labor organization in America.

Machinists' lodges of New England have begun an agitation to have labor men nominated for the various elective offices in every city and town.

Uncle Allen.
"When a man really wants an office," Uncle Allen Sparks was saying, "the fools might fear people by trying to look as if he didn't want it. I've had some experience, and I know."—Chicago Tribune.

ABOUT THE STATE

The postoffice at East Frenchman has been re-established as a money order office.

Judge and Mrs. Wendell P. Stafford have returned to St. Johnsbury from Washington for the summer.

Col. Joseph Battell has given to the Middlebury Improvement society \$1,000 to be used toward erecting the fountain opposite the Battell building.

The Rev. E. M. Fuller of Burlington, secretary of the Vermont state Sunday school association, with Mrs. Fuller has gone to North Stratford, N. H., to pass the summer.

During the month of June, according to returns to the Burlington city clerk's office, there were 45 deaths. Of these 22 were men and 23 women. During the same period there were 27 marriages in the city.

Thomas Reed Powell, youngest son of Col. and Mrs. E. Henry Powell, of Burlington, who is now in Europe, will on his return to this country assume a professorship as assistant in political science in the state college at Urbana, Ill.

The month of June was one of the largest in the history of Burlington's city clerk. There were 80 cases brought before Judge E. C. Mower, final disposition being made of a majority of them. Of this number, 53 were cases of intoxication. The other offenses are classified as follows: Larceny, 2; breach of the peace, 9; violation of liquor statute, 6; truancy, 2; violating bank law, 1; vagrancy, 1; assault with intent to rob, 1; burglary, 2; loitering, 1.

Graduate Nurses From Asylum.

The graduating exercises of the school for nurses at the state hospital for the insane at Waterbury were held Thursday evening. After a short address by F. C. Williams of Newport, of the board of trustees, there was a demonstration in bandaging by the graduates, Miss Lizzie M. Adams, Miss Gertrude Good-year and Claude A. Rogers. The diplomas were then presented by the superintendent, Dr. D. D. Grout, after which dancing was enjoyed.

Corner Stone of Grange Hall Laid.

The corner stone of a hall which will be erected by West Dummerston Grange was laid in West Dummerston Saturday afternoon by State Master George A. Pierce of Brattleboro. More than two hundred people were present. After the ceremony a ball game was played between the Williams team and the West Dummerston Grange, the former being victorious. There was dancing in the evening. The land for the hall was bought of the Vermont State Baptist association and the town of Dummerston appropriated \$500 toward the cost of the work.

House of Correction Commitments.

The number of commitments to the house of correction, Rutland, for June was 22, an increase of 11 over the previous month. June business was heavier than usual because of the fact that the court's in different counties were in session and each contributed several prisoners.

At the Rutland county jail there were 26 offenders during June, a decrease of four over May. During the month of April 52 people were registered on the county jail blotter.

FOREST FIRE STARTS ANEW.

And Houses Are Now Threatened in Keenebunk.

Wells, Me., July 9.—The forest fire which was set by lightning Thursday and has been brought under control twice, after burning over several hundred acres of land and two hundred cords of wood valued at \$800, broke out again yesterday and was carried by a northwest wind into Keenebunk, where a number of houses were threatened. Forty men from West Keenebunk and others from this town fought it all night. The men were so exhausted that but a small crew was obtainable yesterday. Thus far it has burned only the young growth and a small area of valuable timber, so the loss to woodland has not been severe.

REVOLUTION'S TOLL 100.

The Reports from Paraguay Have Been Exaggerated.

Washington, July 9.—Information received at the state department yesterday is that the estimated loss of life in the recent revolution at Paraguay was from 100 to 150 persons, while 400 were wounded. This information came to the department in a dispatch from Edward C. O'Brien, American minister to Uruguay and Paraguay. The revolution began on July, when the minister of war was taken prisoner. The dispatch came by the way of Buenos Ayres dated July 7, and at that time the city of Asuncion, where the revolution began, was tranquil.

EXCELLENT CROP OUTLOOK

Wheat Condition Well Above Average

CORN IN BETTER SHAPE

That Last July—Acreage Also Larger Than a Year Ago—Promise of Large Yield of Barley, Oats and Rye.

Washington, July 9.—The monthly report of the department of agriculture, issued yesterday, showed the condition of the cereal crops on July 1 to have been:

Winter wheat, 80.6, against 58.90 June 1, 1907, and 85.0 on July 1, 1906.

Spring wheat, 89.4 against 95 June 1, 1907, and 84 on July 1, 1906.

Spring and winter combined, 83.9 against 81.6 on July 1, 1907, and 87.8 on July 1, 1906.

Oats, 85.7 against 82.9 June 1, 1907, and 84 on July 1, 1906.

The amount of wheat remaining in farmers' hands July 1 was about 33,797,000 bushels, or 5.3 per cent.

Preliminary returns show a corn acreage of about 109,996,000 acres, an increase of 1,065,000, or 1.1 per cent as compared with last year.

The figures suggest a winter wheat crop of 416,514,000 bushels, spring wheat 376,276,000 bushels, a total yield of 792,790,000 bushels, compared with 737,270,000 bushels indicated last month and 634,087,000 bushels at harvest last year. The indicated corn crop is 2,736,892,000 bushels, against 2,592,320,000 actually grown last year, and oats 1,012,608,000 bushels, compared with 754,443,000 bushels in 1907.

METAL WORKERS' LEAGUE.

Over 600,000 Members in New Metal Trades Organization.

The new central national body composed of unions of ironworkers and other metal trade crafts recently formed in Cincinnati is to be known as the Metal Workers' league. It will be an affiliate branch of the American Federation of Labor. The preliminary steps in the formation of this organization were taken in March last. The officers of the new body are:

James O'Connell of Washington, vice president of the federation and president of the Machinists' International union, was elected president of the new body. Joseph W. Valentine, president of the Iron Molders' National union; A. B. Grout, president of the Brass Workers and Polishers' National union, both of Cincinnati; J. W. Kline of Chicago, vice president of the Brotherhood of Blacksmiths, and George F. Dunn of Indianapolis, president of the Bolckers' union, were elected vice presidents and James L. Gerson secretary-treasurer. These officials will also constitute the national executive board of the league, and the headquarters will be at Washington.

In numerical strength the league will be a powerful and influential body, with an aggregate membership of over 600,000 molders, machinists, metal polishers, patternmakers, foundry workers, blacksmiths, boilermakers, stove mounters, coremakers, sheet metal workers, electrical workers and possibly steam and electrical engineers engaged in metal working plants.

An effort is to be made to bring in the structural iron and steel workers and the architectural ironworkers and later to secure the active co-operation and affiliation of all the Canadian unions in the metal trades.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; for from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newcomb's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—25 cents and \$1.00.
